## -Coffee-

### Try our featured blends

**Executive Blend** ~ a mixture of blends, the intensity of the dark roast perfectly balanced with the bright notes of the light.

**Colombian Alta Supreme** ~ the high roasting brings out the depth of this prime quality Colombian and tones down its natural acidity, leading to strong balanced character.

**Available in Decaf.**

**Costa Rican San Pablo** ~ juicy, with dark chocolate, merlot and dark cherry overtones, fresh ripe sweetness and a good acidity.

**Brazilian Blend** ~ this Grade I coffee has a fully rounded chocolaty body with a very light citrus acidic background. It has a nutty flavour with honey overtones.

## -Tea-

**British Breakfast** ~ with a rich flavour, full body and deep, clear colour.

**Available in Decaf**

**Imperial Earl Grey** ~ delightfully aromatic and full of citrus flavour, excellent with or without milk.

**Assam Flowery Orange Pekoe** ~ this Assam tea is full-bodied with a rich, malty flavour.

**Darjeeling Flowery Orange Pekoe** ~ light, fragrant and delicious.

**Pinhead Gunpowder China Green** ~ this green tea is full flavoured with aromatic liquor.

**Pai Mu Tan China White** ~ this white tea is light with a honeyed sweetness and peony flowers.

**Camomile Flower** ~ Light and herbal, with a floral sweetness. This is a naturally caffeine-free tea.

**Lemon & Ginger Infusion** ~ an infusion of real lemon and ginger pieces that is equally good hot or cold!

**Redberry Fruit Blend** ~ this caffeine-free tea features rosehip, hibiscus, apple, orange and red berry flavours.

**Peppermint Leaves** ~ Refreshing and cool, peppermint has long been used as a traditional aid to digestion.
